Hudson Bay Minerals

Say Secret Mine in Hudson's Bay Has Been Worked Since 1713

The Pas, Man.—That the Hudson Bay company has carried on secret mining operations on the east coast of Hudson Bay for two hundred years is the startling report received at this place. The location of the mine is stated to be at Little Whale river. The report has created the deepest interest and it goes on to say that the ore is taken back to England as ballast in the company's ships after they are emptied of trading supplies delivered at various posts dotting both sides of the bay. This practice dates back to 1710, when the mine was discovered, and since then it has been worked by the factor and his men of Little Whale post.

Prof. J. B. Tyrrell, who is here to examine the mineral belt, says he has heard of the mine, but he did not think it was being worked at present. He was unable to give any particulars concerning it, but he thought the ore was galena carrying some values in lead and silver. Further information, he said, might be obtained from the company's head office at London.

CHILDHOOD CONSTIPATION

Constipated children can find prompt relief through the use of Baby's Own Tablets. The Tablets are mild but thorough laxative, which never fail to regulate the bowels and stomach, thus driving out constipation and indigestion; colds and simple fevers. Concerning them Mrs. Gagnard, Daigle, Dainville, Quebec, writes: "Baby's Own Tablets have been of great benefit to my little boy, who was suffering from constipation and indigestion. They quickly relieved him, and now he is in the best of health." The Tablets are sold by medicine dealers or by mail at 25 cts a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Prohibition, observes a contemporary, has rarely taken some people's breath away.

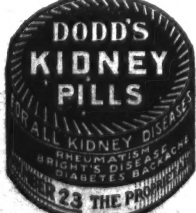

Minard's Liniment Cures Burns, Etc.

Neutral Zone May Be Established
Copenhagen, Denmark.—The conference between the Estonian, Lithuanian and Lithuanian prime ministers and the Finnish Minister of State considered the peace proposals of the Soviet Government and the general situation, including the establishment of a neutral zone between the border states and Russia, and other means which might prevent the Bolshevik movement spreading to the border states. The official report states that a definite line will be taken when the representatives have conferred with their respective governments.

New Zealand's Gratitude

London.—The Times' Wellington correspondent says the New Zealand government has decided to grant soldiers a gratuity of eighteen pence daily from the date of embarkation to the signing of peace. The cost of this will be five and a half million pounds sterling.

The crab may not be as good eating as the lobster, but he'll do in a pinch.

American Settlers

In Canada

Regina, Sask.—Good prices are being paid by American settlers for farm lands in the vicinity of Regina, and a considerable amount of land is changing hands just now. Two farmers from Iowa have just purchased two sections near Gray at \$100 an acre, and a second price of \$110 was paid for the How farm at Rouleau, on the Soo line.

Roads And Wheels Of Paris

Statuary of Louvre Shattered By Vibration of Traffic

Paris is feeling the effects of the immensely heavy motor lorries that, during hostilities, traversed her boulevards and streets. There was nothing to be said about it while the war lasted, and no one complained; but now the matter will have to be given quite serious consideration, if Parisians are not to have Paris tumbling about their ears. At present the roads are in ruts and holes, and the heavy traffic which goes by at great speed at every hour of the day or night. Besides the roads, the houses are affected. Paris was mostly built before motors were thought of, and there are very evident signs that Paris houses, as well as her palaces and monuments, cannot endure such strenuous conditions indefinitely. Already the statuary which ornaments the river facade of the Louvre has been shattered by the vibration of traffic on the quays.

What He Plays

Two men who had been old school-fellows met the other day in a restaurant. After exchanging greetings, one said: "By the way, old chap, when at school you used to be rather fond of music. Do you play any instrument now?" "Yes," was the reply; "second fiddle at home."

Dress is sometimes a matter of form, and form is often a matter of dress.

Minard's Liniment Co., Toronto, Ont.—A customer of ours carried a very bad case of distemper in a valuable horse by the use of MINARD'S LINIMENT. Yours truly, V. H. ANDERSON.

The Order Of Merit

Marshal Joffre Second Frenchman to Receive British Honor

It is curious to note that while it has always been possible to admit distinguished foreigners to the Order of Merit, Marshal Joffre is only the second Frenchman to receive this high British honor. Until the king gave the O.M. to Foch last year, Japan was the only foreign country which possessed members of the Order. Prince Yamagata, Count Iwano and the late Prince Yamagata were appointed some years ago. At the foreign O.M.'s have thus been military members.

Of the score or so of British O.M.'s there are but three survivors of the dozen selected by King Edward to be original members when he founded the Order to mark his Coronation in 1902. They are Lord Minto, Lord Rayleigh and Sir E. H. Seymour.

There are monuments in the life of every married man when he wishes he hadn't.

W. N. U. 1283

King's Honor List

For Employers

King George Proclaims Necessity of Employers Caring for Returned Soldiers

London.—A new plan to secure the absorption of the 100,000 still unemployed or disabled army, navy and air force men into the industrial ranks appears in the shape of the royal proclamation, in which the king, holding a dear obligation upon all to acknowledge the sacrifices of these men in securing a victorious peace, charges all employers of labor to bind themselves in high and solemn obligations to find employment for as many as possible.

The names of such employers shall be inscribed upon what shall be styled "The King's National Roll." The employer thus inscribed will be indicated by the use on his correspondence of an official device, "a seal of honor," indicating the share he has taken in the national obligation.

A farmer had just come to town for a few days. Before he started he had promised to bring his daughter a present, so he went into a jeweler's store and said to the clerk: "I want a pair of earrings, cheap, but pretty."

"Yes, sir," said the clerk. "You want something loud, I suppose?" "Well, I don't mind if one of them is a little bit loud," replied the farmer. "My girl is slightly deaf in one ear."

Complimentary

Wife (examining husband's basket of fish): "Is it true that fish go about in schools?"

Husband: "Yes, dear."

Wife: "Then I suppose you fell in with the infant class?"

Miller's Worm Powders will not only expel worms from the system, but will induce healthy conditions of the system under which worms can no longer thrive. Worms keep a child in a continual state of restlessness and pain, and there can be no comfort for the little one until the cause of suffering be removed, which can be easily done by the use of these powders, than which there is nothing more effective.

It sometimes happens that a music composer's wife thinks it is up to her to put on airs.

WHEN YOU SUFFER FROM RHEUMATISM

Almost any man will tell you that Sloan's Liniment means Relief

For practically every man has used it who has suffered from rheumatism, soreness of muscles, stiffness of joints, the results of weather exposure. Women, too, by the hundreds of thousands, use it for relieving neuralgia, lumbago, sciatica, headache, clean, refreshing, soothing, economical, quickly effective. Sloan's Liniment, to your druggist. Get it today. 35c, 70c, \$1.40—Made in Canada.

Sloan's Liniment

Keep it handy

Honesty among Icelanders is so severe a faith that thefts are unknown, though locks, bolts and bars are never used. Of the only two acts of felony within the last eight or nine centuries, one was committed by a German settler, who was compelled to make restitution to his victim, and then given the option of death or speedy emigration.

Tragic Pens

At the prison of St. Paul, at Lyons, France, there is a curious collection of pens. They are the pens with which the ex-convicts signed their regulation receipts for the prisoners handed over to them to be gillotined. At each execution a fresh pen is used for the purpose, and the ink is left to dry upon it.

Some Legacy

"When Mr. Lacey died he left all he had to the orphan asylum."

"Indeed? That was good of him. What did he leave?"

"His two little children."

Asthma Overcome. For months my asthma has controlled me. Dr. J. D. Kellogg's Asthma Remedy has proved the most positive blessing the victim of asthma could have. I am now free from the disease. Letters received from others who have tried it from a test of months who have no more doubt that there is a real cure.

Shipyard Building in Ireland
Dublin, Ireland.—The latest scheme of the "million" for housing "slaves" is a proposal to provide homes for building shipyards in Ireland. Three such yards are proposed and Dublin is to have the largest yard in the world if the idea is carried out. A committee has been appointed by the Dublin Corporation and Docks Board to go into the details of the scheme.

A Bedouin marriage does not take much time. The bridegroom kills a sheep and spills the blood on the sand of his father-in-law's threshold, and the wedding is over.

Beauty has no real advantage, but it catches the floating vote.

First German Cargo Arrives

Former Hamburg-American Atlas Liner at New York

New York.—The 1,500-ton steamer Jason, formerly the Virginia, of the Hamburg-American Atlas line, has arrived here bringing the first cargo from Germany since the war ended. The ship left Hamburg, Germany, September 5, in charge of Captain W. H. Bevans.

Bevans said he took a cargo of meat to Germany and brought back 350 tons of sugar beet seed, slate, glass, artificial flowers and beaded handbags.

The port of Hamburg is practically stripped of shipping, Bevans said. He saw only six steamers in the harbor there, and said three more were being constructed, including the Bismarck, which will be the largest vessel afloat. Food is plentiful in Hamburg, he asserted.

Impurities of the Blood Counteracted.—Impurities in the blood come from defects in the action of the liver. They are revealed by pimples and unsightly blotches on the skin. They must be treated inwardly, and for this purpose there is no more effective compound to be used than Farnelle's Vegetable Pills. They act directly on the liver, and by setting up healthy processes have a beneficial effect upon the blood, so that impurities are eliminated.

Have Large Membership
There are 114 branches of the Great War Veterans' Association in Saskatchewan, with a total membership of 17,000.

A SAD TRAGEDY

It often happens—your sore corn is stepped on. Why not use "Putnam's Corn Extractor." It cures in one day. Absolutely no pain with "Putnam's." Use no other, 25c at all dealers.

Winnipeg Doctor In Serbia

Well Equipped Canadian Hospital Devoted to Stricken People

Montreal.—A copy of a Belgrade newspaper, which has just come to hand from Serbia, reports the arrival in that city of Col. F. E. Burnham, early this year, who left Winnipeg with a well-equipped Canadian hospital which is to be devoted to the stricken people of that country. Dr. Burnham was in Serbia during the greater part of the war as a Red Cross worker, and he was so impressed by the needs of the people from the medical standpoint that he returned to Canada and organized a Canadian unit.

China at Peace With Germany

Washington, District of Columbia.—Under date of Sept. 15, the Government of China issued a mandate declaring that China is at peace with Germany, the State Department announced. The delegates of China at the peace conference declined to sign the treaty of peace because of the clause according to Japan the economic rights of Shantung, formerly held by Germany. By the action of Sept. 15 China undertakes to return to a status of peace without formal treaty with Germany.

The Chinese point of view of maritime disasters is peculiar. The duty of a Chinese sailor is well defined. He must save the men first, then the children, and finally the women. This is the theory that men are most valuable to the state, that adoptive parents can be found for children, and that women without husbands are destitute.

No house in London is more than two hundred yards from a mail box or a branch of the general post office.

Love poems should always be bound in calf.

Eighty-five per cent. of lame people are affected on the left side.

Does your watch tell time in the dark?

11 12 1 2 3 4 5 6 7 8 9 10

Ingersoll Radiolites do!

Wouldn't Hurt 'Em

Visitors: "You keep your pigs much too near the house."

Cottagers: "That's just what the doctor said. But I don't see how it's agoin' to hurt 'em!"

The Dyaks of Borneo eat snakes and alligators, but their favorite dish is roasted monkey with the hair on.

It is a pity that the world is so full of people who are not interested in the things that are going on around them.

The Dyaks of Borneo eat snakes and alligators, but their favorite dish is roasted monkey with the hair on.

THE MAKING OF A FAMOUS MEDICINE

How Lydia E. Pinkham's Vegetable Compound Is Prepared For Woman's Use.

A visit to the laboratory where this famous remedy is made impresses upon the casual looker-on with the reliability, accuracy, skill and cleanliness which attend the making of this great medicine for woman's ills.

Over 500,000 pounds of various herbs are used annually and all have to be gathered at the season of the year when their natural juices and medicinal substances are at their best.

The most successful solvents are used to extract the medicinal properties from these herbs.

Every utensil and tank that comes in contact with the medicine is sterilized, and as a final precaution in cleanliness the medicine is pasteurized and sealed in sterile bottles.

It is the wonderful combination of roots and herbs, together with the skill and care used in its preparation which has made this famous medicine so successful in the treatment of female ills.

The letters from women who have been restored to health by the use of Lydia E. Pinkham's Vegetable Compound which we are continually publishing attest to its virtue.

Less Wheat Sown In Britain

Farmers Keep Up Livestock, But Dairying Declines

London.—Provisional estimates by the Board of Agriculture show a decrease of 38,000 acres sown to wheat during the war, though there has been a slight increase in the area of arable land since 1918.

While an estimate of the livestock indicates that the number of cattle has been steadily increasing, there is a falling off in dairying. The flocks of sheep are smaller than any recorded yet.

These Days

Hicks: I say, waiter, where's my coffee?

Waiter: You just drank it, sir.

Hicks: What? I thought that was the soup!

SUFFERING CATS! GIVE THIS MAN THE GOLD MEDAL

Let folks step on your feet hereafter; wear shoes a size smaller if you like, for cats will never again send electric sparks of pain through you, according to this Cincinnati authority.

He says that a few drops of a drug called freezeone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lies right out.

This drug is a sticky ether compound, but dries at once and simply shrivels up the corn without inflaming or even irritating the surrounding tissue.

It is claimed that a quarter of an ounce of freezeone obtained at any drug store will cost very little, but is sufficient to remove every hard or soft corn or callus from one's feet. Cut this out, especially if you are a woman reader who wears high heels.

Howell: "Your wife is a decided blond, isn't she?"

Powell: "Well, at times, but just before she goes to the drug store she is a little mud-colored."

In the Sargasso Sea the gull weed is so heavily packed as to impede the passage of the largest ships.

Eighty-five per cent. of lame people are affected on the left side.

Nothing To Be Made From Pulp

Laundry Work May Be Abolished By This Substitute for Linen

Vancouver.—Sir George Bury, head of the Whelan company, is an enthusiast on the future of the pulp industry. In an interview he said: "The pulp industry is in its infancy. It is in the same position as steel was 25 years ago. Paper made from pulp has been employed to make wheels on the Pullman cars. In a few years everything we wear will be made of pulp. Five years from now the housekeeper will have all her kitchen utensils made of pulp. The laundry will largely disappear because our underclothes, shirts, collars, neckties, napkins, etc., will be made from pulp."

British Columbia will produce the pulp for the world because nowhere else is there grown better wood than the Sitka spruce found on the British Columbia coast. Sitka spruce has the longest and strongest fibre of any wood, and was used extensively in the manufacture of airplanes. It makes the strongest and whitest pulp, as strong as the pulp made by the Egyptians from linen in the form of papyrus. Nowhere else in the world is there such an enormous supply of pure water, one hundred thousand gallons is needed to make a ton of pulp. I believe that pulp will finally solve the high cost of living."

Catarh Cannot Be Cured by LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarh is a local disease, directly influenced by constitutional conditions.

Germany cannot actually rule the Russian Empire, and she is not even in a position to rule the Slav dominions, Germany intends to rule the rulers of Russia, whoever they may be. Therefore it was first of all necessary to weaken Russia, and as no solvent more effectively destroys the national fibre than the virioli of anarchy, no Germany inspired, encouraged and bribed the Bolshevik leaders in Russia—London Morning Post.

Unchangeable Tension
Germany is always ready to change sides, to repudiate a pledge, and to betray a friend; but amid all her infidelities she is constant to the purpose of her unalterable ambition. If Germany cannot actually rule the Russian Empire, and she is not even in a position to rule the Slav dominions, Germany intends to rule the rulers of Russia, whoever they may be. Therefore it was first of all necessary to weaken Russia, and as no solvent more effectively destroys the national fibre than the virioli of anarchy, no Germany inspired, encouraged and bribed the Bolshevik leaders in Russia—London Morning Post.

VETERANS BANQUET

No community in Canada has extended to their returned men a more whole-hearted and enthusiastic reception than that of the citizens of Lacombe, which took the form of a banquet and reception and dance on Thursday evening last.

For two weeks previous to the occasion, Mr. Alfred Lundie, assisted by an able committee of citizens, had the preparation of the banquet in hand, while the reception and dance was looked after by Mrs. N. W. Morrison and a committee of ladies.

That the work of both committees was par excellence, was evidenced by the completeness of the arrangements.

At nine o'clock the soldier guests assembled at the Adelphi Hotel and were met by a number of citizens who extended the glad hand, and strove to make the evening a happy one. Miss Host A. T. Inskip had everything in readiness, and one hundred and sixty-two returned men and their friends sat down to a most sumptuous repast. It was a real banquet in every sense of the word, and the tasty viands were done ample justice to.

At the conclusion of the operation of "filling the inner man," a toast list was given, Mayor Morrison acting as toast master in a very able manner. In his opening remarks he extended the thanks of the town to our boys who had gone overseas, and gave them a hearty welcome home in the name of our citizens.

"The King," the first toast on the list, was responded to in a hearty manner, all joining in singing God Save Our King.

"Our Boys," coupled with the name of W. F. Puffer was ably spoken to by that gentleman. He very feelingly referred to the valor and self sacrifice of those who had left home and friends to battle with the Hun, and was cheered to the echo. R. H. Inglis replied on behalf of "Our Boys."

A tribute was paid to the American Army, and members of that army who were present were asked to stand, and the American National Anthem was rendered.

"The Nursing Sisters," was spoken to by Rev. A. T. Barr, and John T. McKenty.

"Our boys who lie in Flanders Fields" was most feelingly responded to by all present rising, and standing with bowed heads while the Dead March in Soli, was rendered.

After the singing of the National Anthem, all present proceeded to the Veterans Theatre, where the ladies of the town were entertaining the wives, parents and other friends of the soldiers. The theatre was gorgeously decorated with flags and bunting, denoting the hard work those in charge had gone to. And a happier crowd than the theatre contained could not be found anywhere. The hostesses saw that everyone had a good time, and before many minutes there were no "strangers" in the hall—everyone was happy—and as some of "the boys" remarked, were having the time of their lives. Those who were not dancing were enjoying themselves in various other ways, and you only had to look at their faces to see that they were glad to be there. A dainty luncheon had been provided at the hall, and the ladies had no trouble providing for the four hundred guests. Dancing was kept up until about four o'clock a.m., when the tired and happy revellers betook themselves homeward.

Lacombe News

The regular meeting of the Progressive U. F. A. will be held at the home of Chas. Carter, on Thursday evening, October 7th. Everyone invited.

Messrs. Anderson and Rogers have purchased Arnot and Co's stock of dry goods and the Chown stock, and will open up with a big sale in Arnot's old stand, Barnett Ave., in a few days. Watch for announcement later.

DELCO-LIGHT

The Complete Electric Light and Power Plant

Lights the Home

Pumps the Water

Pays for Itself

ANY one of over 75,000 users will tell you that Delco-Light pays for itself.

In money.

They will tell you that the pleasure and comfort of Delco-Light cost you nothing.

CHOICES are non-productive work. Cut down chore time and you can do things worth money to you. Win. Schneekloth says the electric power from his Delco-Light plant saves him 8½ hours a week on the churn, separator and washing machine alone—over 40 working days in a year. Think of the money he can make in those forty days.

On the Helms farm at Belleville they use Delco-Light power for the chores—in milking and feeding stock, in pumping water, in ironing and washing—and save 19 hours a week, or about three months of one man's work in the year. Here's a hired man's work for three months which Delco-Light does. The cost of operating Delco-Light is less than the cost of oil for oil lamps.

But operating the small machinery around the farm is only a part of the work which Delco-Light does for you. Take the question of pumping water; with Delco-Light you can have water under pressure at taps anywhere on the farm. You can water stock easily and quickly. You can have hot and cold water in the house. S. W. Cooke & Son, of Mayville, have a big herd of Holsteins. Delco-Light has pumped the water and done the milking for three years. They figure that their saving is not less than \$1,800. As Mr. Cooke says, they could pretty nearly afford a new Delco-Light plant every year. And remember this saving does not include the convenience and comfort and saving of electric lights.

J. H. Lackey raises Polled Jerseys and Poland China Hogs. He, also, needs a lot of water. His Delco-Light outfit enables him to get along without two men he formerly hired.

AROUND the house there is a great big saving of time and work for your wife—time she can very well use for her chickens or her garden or her dressmaking. A. F. Hinnenkamp tells us that Delco-Light saves, his wife 416 hours of housework a year by operating an electric iron, a vacuum sweeper and a washing machine. Besides—no lamps to clean, no matches to use, no danger of fire, lots of light.

C. F. Tressen adds in the time saved from cleaning lamps and makes a total of 547 hours a year. Think of all the things your wife could do with that extra seven weeks. And then you have electric light. You can't know the joy and comfort of electric light till you have experienced it. Just press a button and release a flood of bright, clean, safe light. No matches. No lamps. No danger. Delco-Light gives four times as much light from a gallon of coal oil as a lamp gives.

C. F. Tressen adds in the time saved from cleaning lamps and makes a total of 547 hours a year. Think of all the things your wife could do with that extra seven weeks. And then you have electric light. You can't know the joy and comfort of electric light till you have experienced it. Just press a button and release a flood of bright, clean, safe light. No matches. No lamps. No danger. Delco-Light gives four times as much light from a gallon of coal oil as a lamp gives.

DELCO-LIGHT is a complete electric light and power plant, easy to install and easy to care for. It will give twenty-four-hour-a-day electric light and power service.

Delco-Light is direct connected. There are no belts to slip, break or be replaced.

It is self-cranking. Pressing down a lever starts the engine.

It is air-cooled. There is no water to carry, to freeze, or to boil away.

There is only one place to put oil.

A simple mixing valve regulates the fuel supply. There is no complicated carburetor.

Ball and roller bearings cut down friction to a minimum.

Long-life batteries mean economy.

You need to know more about Delco-Light. We have fully illustrated literature showing Delco-Light in operation. Write your nearest distributor for it.

Throughout this advertisement we have quoted from letters received from Delco-Light users. Each of these letters is accompanied by an affidavit. We have prepared a folder reproducing some of these letters, and with photographs of some farms where Delco-Light is used. Your nearest distributor will be glad to send this book to you.

Few Men Desire to Undertake

The proper administration of an Estate is no easy task. If put on the shoulders of an individual, it demands an amount of time and care that few business men can willingly spare from their own affairs; moreover should anything happen to the individual before the Estate is settled, confusion, litigation and delay, with accompanying loss, frequently result. The Trust Company specializing in the administration of property is the logical answer to the question of whom to name as your Executor.

Consult us now about this important matter.

Titan Tractors

Ask your neighbor who owns one, just what he thinks of his 10-30 Titan Tractor. The extra amount of plowing done last fall, the new land he was able to put under cultivation during the summer, the complete satisfaction that the tractor has given him, is the best recommendation we can give you. Remember, the Titan is strictly a coal oil burning engine (cheaper fuel), that it runs 500 revolutions per minute (longer life), that its draw bar pull is 4 horse power more than its rating (more power), it is backed by the Harvester Co., with its repair system, and their trained agents (the best possible service). And the price (\$1150). Yes that's the price, eleven hundred and fifty dollars. See us about one; we will be glad to demonstrate to you in any way.

On and after this date there will be no grinding done at the Chop Mill until after threshing is over.

Olds School of Agriculture

EDUCATION PAYS ON THE FARM

Statistics show that farmers who have had an education make larger incomes than those who have received but little schooling.

An education is more necessary now than it was thirty years ago. Farming has changed greatly in this period. Then, farmers cut their grain with a scythe, bound it by hand and threshed it with a flail. They ground their grain between stones and lifted the water out of the well in buckets. They treated their nondescript cattle for "hollow horn" and "wolf in the tail" and planted their grain in the moon. The horse and the ox were their only means of transportation. The farm houses had no conveniences; house work was with candles; the kitchen equipment consisted largely of hard work.

Now, the farmers have larger farms. They cut and bind their grain with binders and thresh with engine driven separators. They frequently plow with tractors and many own automobiles. They select varieties of grain that are known to give larger returns than the ordinary varieties. They treat their seed to control diseases and plant at rates per acre, which experiments have shown to give maximum yields. They select improved types of breeding animals and feed their stock in accordance with knowledge derived from the chemistry of foods. The farm houses have been greatly improved.

To keep up with the times and to make the most money from the farm, one should know how to farm in accordance with the most improved methods. You can learn these methods at the Olds School of Agriculture. Education pays; you can learn in a few months what it would take years of experience to give you. Talk with any ex-student regarding the value of the course.

Classes in Agriculture and Domestic Science commence on October 29th.

Bentley News

Lost in Mail Last Week

Everyone hopes that the rainy spell is over and that Sunny Alberta has come to life again.

Threshing is in full swing and new outfits are starting up every day. The yield is reported very good and the quality is fair.

A wedding of interest to Bentley folk took place in Calgary on Monday, Sept. 15th when Mr. Arthur K. Putnam, Miss Barry Thomas, daughter of Mr. Barry Thomas, of Edmonton and Miss Florence Whitmore were married by Rev. Chas. A. Sykes, B.D., in Central Methodist Church. We wish them long life and happiness.

On Saturday, Sept. 20th, the marriage of Mrs. Steina McPherson and Charles A. Whitesell was celebrated in Lacombe. They have taken up their residence in Bentley, where the best wishes of a large circle of friends will be extended.

On Monday evening the "small fry" (1) held a chivaree when a pleasant time was had.

Mr. Geoffrey Taylor visited with Mr. Miller the past week and left on Saturday morning for the University of Alberta, Edmonton, where he purposes pursuing the course of B.Sc. in Arts.

The Union Bank has let the contract for a new two story frame Bank Building, 24x40 to be erected on the lot between the butcher shop and the present premises of the Bank. Mr. M. H. H. is the contractor and the work will be begun very soon.

Mrs. McLure left this week for Edmonton.

Word has been received this week that Miss Francis Court is again engaged in teaching at Morley, Alta.

Heating stoves, Stove Boards, etc., in all sizes. Morrison and Johnston, Ltd. Bentley.

Lieut. W. J. Grant, R. A. F. returned from his overseas tour of duty on Saturday last. He was with Mr. and Mrs. F. W. Thorp. His host of friends are delighted to see him again. We understand Mr. Grant intends to pursue a course in medicine at the University of Alberta.

October 1st is the date set by the village council to prohibit stock from running at large in the village. We hope everyone will bear this in mind and see that the stock is shut up.

We again lift our voice in protest against the foolish practice of allowing cattle and horses to run at large at all times. Many of our summer home gardens have been damaged by cattle and horse breaking through gates and fences. One man lost a lot of splendid calabash this fall and had a perfectly good fence torn down. Another party had five bushels of lovely potatoes eaten one night by cows, and they had to borrow under a board fence to get at them at that. This is not fair and should not be allowed. We sincerely hope to see the citizens of Bentley demand of the council this winter that a bylaw be passed forbidding any kind of stock running at large during any time of the year.

Monday, October 13th, has been set aside as Thanksgiving Day. Watch for announcements next week regarding the annual Ladies' Aid Supper.

Threshers Supplies carried at Morrison and Johnston, Ltd. Bentley.

The fall season for the young people will open on Friday evening next, when the Young People's Society will meet for the election of officers and the arranging of a program for the fall and winter. With last year's success as a stimulus and guide we expect a most interesting time this year under the direction of this society.

Rubber Belting in all sizes at Morrison and Johnston, Ltd. Bentley.

Messrs. Crawford Bros. on Saturday, sold their half section on the edge of Bentley to Mr. E. Clow, of Lacombe, and recently of Thompson. The price we understand was fifty dollars an acre. It is with much regret that we

learn of the intended departure of the Crawford family. They are the first class family, good citizens and neighbors, and we can ill afford to lose them. We trust they may have abundant success wherever they may settle.

Mr. F. Barclay, of Calgary, was a visitor in town on Monday, Tuesday this week. Mr. Barclay is representing the McKenzie Seed Co. of Calgary. He expresses his great surprise at seeing a town of this size where he expected to see at best a store and Post Office.

Lockhart News

The members of the A. W. I. met at the home of Mrs. Chas. Calkins on the 18th. A good attendance was present. Mrs. Hance was the speaker, the subject on how to prepare a meatless dinner, to have the best of health and interest the community in getting a cemetery in the valley. Also try and fix up the Church and School grounds before winter.

An account of the convener's meeting at Lacombe was given by those present: Mrs. Fraser, Mrs. Steeves, Mrs. Wilson, Mrs. Palm. Mrs. Taylor was put in as director, and Mrs. Hance, convener representative; it was decided by all to make a quilt for our sale this fall.

Mrs. Caldwell of Lacombe was a visitor at our meeting. The next meeting will be held at the hall on Oct. 16. A Ladies' Aid meeting will be the subject. What the institute has done and what they intend to do. All members cordially invited.

Lars Kilde's Auction Sale
Lars Kilde, whose farm is thirteen miles north west of Lacombe is holding a sale of his farm stock and implements on Wednesday, October 15th, at 12 o'clock. He has 35 head of choice cattle, a number of good work horses, a full line of implements, household goods, etc. C. F. Damron is in charge of the sale. See posters and be at this sale as there is no reserve.

Notice to Creditors of the Estate of Arthur Charles Hare, late of the Post Office of Tees, in the Province of Alberta.

Notice is hereby given that all persons having claims upon the estate of the above named Arthur Charles Hare, who died on or about the 7th day of June, A.D. 1919, are required to file with the National Trust Company, Limited, at 10072 Jasper Avenue, Edmonton, Alberta, by the 31st day of October, A.D. 1919, a full statement duly verified by statutory declaration of their claims and of any securities held by them, and that after that date the Administrator will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to his knowledge.

Dated at Edmonton, this 22nd day of September, A.D. 1919.

highest prices.

Note and Comment

Manitoba's attorney-general says
he does not like the Judge Robson
plan of having the provincial police
work up cases for new board
of commerce. He has an idea it
would mean too much for the po-
lice. It looks as if there might be
a concerted effort on the part of
the provincial authorities to "pass
the buck" back to the Dominion in
this matter. A fine illustration of
service for the people, truly.His Royal Highness the Prince
of Wales finds Canadian hand-
shakes too hearty for his strong
right hand. Come to think of it
habit of showing good feeling by
a vice-like hand grip is frequently
a painful experience for the recip-
ient.Over in England a fight over the
navy promises to develop in the
near future. Advocates of the lit-
tle navy argue that with Germany
out of the game there can be no
war of words.excuse for continuation of an ex-
tensive campaign of warship con-
struction. The other side hasn't
much argument with which to
combat this suggestion, but is
standing on the deep-rooted con-
viction of the race that the big
navy is absolutely necessary for
island kingdom if it would hold
its premier position among the na-
tions of the world and assure its
own economic existence for the
future. It promises to be a merry
war of words.

PAULINE FREDERICK in 'A Daughter of the Old South'

A Paramount Picture

We beg to announce that Pauline Frederick, the distinguished emotional star, will be seen in her
latest Paramount photoplay, "A Daughter of the Old South," at Rex Theatre, next Friday and Sat-
urday.

This is a superb film production and is well worth your most care-ful consideration.

Lacombe Creamery

There is just one reason why Canadian butter cannot dominate
the World's Markets. That reason is "Quality" the control of
which is in the hands of the producer and the Buttermaker.
If the cream producers will patronize their local Creameries,
where immediate manufacture takes place, quality, lower cost
of production and consequently. Higher Prices to the Cream
Producers is the result.

Always at Your Service, Highest Prices.
